

*Being long-time residents of St. Petersburg, we are so honored to be able to bring Souzou to you and to be a part of our city's culinary advent. While there are so many successful Japanese, Chinese and Thai restaurants in our area, we believed that something was missing... We believed that missing element was creativity and imagination when it came to enjoying contemporary Asian fare. Hence, the concept of Souzou (Japanese for "imagination") was born.*

*We traveled to some of the most renowned Asian fare restaurants to bring a culmination of culinary ideas and traditions from some of the most distinguished chefs to you, our guest. We refer to this inspired culmination as "Asian Fusion". Fusion cuisine is often a combination of various forms of cookery from many different cultures that is not bound by one particular cooking style. While the inspiration for our menu is mainly rooted in Japanese, Chinese and Thai cuisine, our chef's challenge themselves each day to experiment with other Asian cuisines like Vietnamese and Korean in order to create new dishes and craft cocktails for our guests to enjoy a one-of-a-kind dining experience.*

*We consider ourselves an Asian Fusion "scratch kitchen", meaning that we focus on making each one of our dishes from scratch daily with only the freshest, quality ingredients. Whether that be daily handmade wasabi or kimchi, we want to provide a truly authentic and unique culinary concept to St. Petersburg.*

*We believe Souzou to be an extension of our home and, as such, you are our guests. With that said, we strive to make your time with us not only comfortable, as if you were eating at a friend's home, but memorable. If there is anything we can do to accommodate you in achieving this goal or assisting you with our menu offerings, please do not hesitate to ask our staff.*

*Thank You,*

*The Souzou Family*

## DRINK MENU

## WELCOME 歡迎

*We pride ourselves on offering our guests a beverage program that supports the philosophy of the menu: contemporary and creative Asian interpretations on dishes and drinks. Accordingly, our cocktail list modernizes several classics with an emphasis on Asian creativity and presentation.*

*At Souzou, you will find that our juices are hand-squeezed daily, our spirit infusions are created by our bartenders, all syrups and garnishes are prepared in-house, and we use small-batch selections when available; all in an effort to provide our guests with creative, quality and Asian-inspired libations.*

## SAKE 酒

Traditionally, one does not pour one's own sake, which is known as *tejaku*.

Instead members of a party pour for each other, which is known as *shaku*, and is a sign of camaraderie and respect.
